- Client Engagement
- Time Management
- Team Work
- Adaptability
- Attention to Detail
- Active Listener
- Quick Learner
- Collaboration

EXPERIENCE

FrontEnd Developer

December 2021 – Present

[SmartSites](#), Kathmandu, Nepal

- Developing modern, responsive websites using **React.js**, **Gatsby**, and **WordPress**, ensuring smooth performance across all devices and browsers.
- Applying modern **UI/UX principles** to design intuitive, user-focused interfaces that enhance engagement and usability.
- Building pixel-perfect front-end components using **React.js**, **WordPress**, **HTML5**, **CSS3**, **Tailwind CSS**, **SASS**, and **Bootstrap**, based on **Figma** and **Adobe XD** designs.
- Maintaining and enhancing **design systems** and **component libraries** to streamline development workflows and ensuring design consistency.
- Implementing **WCAG-compliant accessibility** features and conducting usability testing to improve user experience and reduce bounce rates.
- Utilizing **CSS media queries**, **Tailwind CSS**, and **Bootstrap** to create fully responsive, cross-browser-compatible layouts.
- Refactoring and modularizing legacy front-end code to improve **performance**, **scalability**, and **maintainability**.
- Ensuring consistent rendering across browsers and devices using **modern CSS techniques** and a **mobile-first** development approach.
- Optimizing websites for **SEO** through semantic HTML, structured metadata, image optimization (lazy loading), and performance best practices.
- Achieving strong Lighthouse audit scores by focusing on performance, accessibility, best practices, and SEO.
- Using **Git** and **GitHub** for version control, code reviews, and collaborative development within team environments.
- Staying up to date up with the latest trends in **front-end development**, **SEO**, and **UI frameworks** to deliver high-quality, value-driven solutions.
- Leading a team of developers by assigning tasks, reviewing code, and ensuring timely, high-quality project delivery.
- Managing and resolving bugs, handling urgent updates, and implementing enhancements with a strong focus on quality assurance and fast turnaround.
